

Quick Start Guide

LandAirSea 7100 Online Tracking

1. To activate your LandAirSea 7100 tracking unit fill out the 7100 Activation Sheet and fax it to the number given on that sheet.
2. After your unit is activated you can install your tracking unit. Then, go to the Log In link which can be found on the LandAirSea 7100 product page.
3. **MAKE SURE YOU SET YOUR BROWSER SETTINGS ARE CORRECT.**

Internet Explorer 6

Select Tools from the menu, then Internet Options, then the Privacy tab, click Advanced, make sure Override automatic cookie handling is checked and then that Always allow session cookies is checked.

Select Tools from the menu, then Internet Options, then the General tab, click Settings and make sure Check for newer versions of stored pages is set to Every visit to the page.

See Chapter 2 of the 7100 User's Guide for easier to read instruction on how to set your browser setting.

4. After you log in, you can click on Monitor and then Last Known Position. You should be able to see the location of your vehicle.
5. Those are the basics. For further instructions, download the LandAirSea 7100 manual at www.landairsea.com. All manuals are available in the downloads section.
